## **Evaluation and Management of Candidates for Kidney Transplantation - Cardiac**

**Helen Pilmore**

*Auckland City Hospital, University of Auckland, New Zealand*

This lecture discusses the risks of cardiac events in patients on the kidney transplant wait list and at transplantation. The KDIGO guidelines on cardiac assessment of kidney transplant candidates will be presented and discussed.

This includes

1. Cardiac risk profile
2. Cardiac assessment
  - a. Coronary Assessment
  - b. Assessment of cardiac function
  - c. Assessment of pulmonary hypertension
3. Treatment of cardiac disease
